

2023-24 Annotated TEI Scorecard

A - EVALUATION SCORE, EVALUATION RATING AND EFFECTIVENESS LEVEL: Teachers will receive an effectiveness level and evaluation rating based on 2022-23 TEI data. This scorecard will show a 2022-23 and a 2023-24 TEI Evaluation score. These standardized evaluation scores allow comparisons of evaluation scores across school years, categories, and school types. When *available*, the 2023-24 evaluation rating will consist of an average of the 2022-23 and 2023-24 evaluation scores. If the 2022-23 evaluation score is *not* available, the evaluation rating will be comprised of the 2023-24

C - DISTINGUISHED TEACHER REVIEW and FOOTNOTES: The DTR section is included on every teacher's TEI evaluation scorecard. For those who underwent the DTR process, the points earned are displayed in this portion of the scorecard. This section also indicates the teacher's DTR eligibility for the current academic school year. Footnotes are associated with a superscript number next to the appropriate component; the number will indicate a specific footnote that will be found in this section. Note, not all scorecards will include footnotes.

D - Employee's TEI History: The section contains TEI evaluation history for employees that have TEI data prior to the 2023-24 academic school year. Effectiveness levels are included in the gray section, and evaluation ratings are included in white below the organization number. The version and date of the scorecard will be located at the bottom of the 2023-24 scorecard.

Note: TIA Designations will not be included on the TEI scorecard. Teachers will be notified of designation via email by December 1.
