

January 27, 2023

Dear Dallas ISD Families:

private information online. Dallas ISD takes this responsibility seriously and will continue the necessary measures to ensure confidential information remains secure.

Federal and state officials recently determined the video-sharing platform TikTok poses a serious security risk. To better protect against cybersecurity concerns, the district is removing access to TikTok from all devices and networks effective today.

TikTok can still be used from private devices and networks outside of Dallas ISD, the app should not be opened when on district devices.

Exp from users including when, where and how a person uses the internet that could be used to share sensitive information and ultimately harm our IT infrastructure.

In this ever-changing digital age, we know videos can provide a level of creativity for students to engage in learning. To support innovative instruction, other video-sharing platforms can be used on
